Smallwoodnews.com

Website dedicated to Smallwood Utilization & Woody Biomass

The screenshot shows the website interface within a browser window. The address bar displays <http://www.smallwoodnews.com/>. The page header features the SUN logo, the text "Smallwood Utilization Network", and the TimberBuySell.com logo. A navigation sidebar on the left includes links for "SUN HOME", "SUN NEWS ARCHIVE AND FORUM", "Sign up for the SUN Newsletter", "NACD Articles", "2006 Woody Biomass Grant - Roll On Transportation System", "406-529-3353 Email Us", "SLIDESHOWS", and a list of featured articles including "Tour of Vaagen Brothers Mill in Usk, Washington", "A New Mill for Bennett Forest Industries", and "Burn That Slash - As".

The main content area features a central article titled "Small Diameter Timber Has Many Value Added uses". The article text states: "SUN offers you a broad network to deal with the complex set of challenges in supply, production, and marketing for the emerging smallwood industry. To keep you up-to-date with the industry, we have the SUN email newsletter and the SUN forum where you can read others' replies to the newsletter articles or add your own comments." Below the text are two images: one showing the interior of a modern wooden building, and another showing a large stack of logs on a truck with a sign that reads "LARGE and SMALL ECONOMY ANIMAL BEDDING".

On the right side, there is a "Most Recent Forum Posts" section listing several articles with hyperlinks, such as "U.S.F.S.'s Wildfire Readiness Debated On Capitol Hill", "ME - Berry Bros. Sawmill is Destroyed By Fire", "Congo - Space Cameras To Monitor Forests", "Complex Dynamics Underlie Bark Beetle Eruptions", "Canada Industry Could Lose Millions Of Hectares Of Forests", and "VT - Emerald Ash Borer Threatens Trees Business".

Timber Sale Marketing Made Easy ONLINE

We noticed Gov't & Private Timber
sales weren't on the web!
